

**TESTING BY MEASURE (HOME UPGRADE ONLY)**

For use in SCE/SoCalGas and SoCalGas/municipal Home Upgrade Programs.

The table below indicates required **post-retrofit** diagnostic tests for each measure installed for a Energy Upgrade California® Home Upgrade only project. **Pre-retrofit** diagnostic testing is no longer required, but is highly recommended.

Applies only to Home Upgrade projects throughout the SCE and SoCalGas service territories. For LA County customers served by both SCE and SoCalGas, please contact the County of Los Angeles/Southern California Regional Energy Network (SoCalREN).

A CF3R, CFM25 result or a date stamped photo of CFM25 result may be submitted to meet duct leakage requirement. If a CF3R is submitted, QC duct testing will be streamlined if the project is chosen for inspection.

**Energy Upgrade California® Home Upgrade** provides assistance and incentives for home improvement projects that can reduce energy use and make homes more comfortable. This statewide program is managed locally by utilities and regional energy networks and directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission. Incentives are offered on a first-come, first-served basis and are effective until the funding is expended or the program is discontinued. Terms and conditions apply. See program rules for details.
